## HOW TO CASH OUT OF THE LUNCH LINE

### Cashing Out of the Lunch Line

Every student will have their own personal cafeteria account based on a PIN number. This number will be included in the welcome letter you receive from the school. Students can access their accounts on the PIN pads located at the register at the end of the lunch line. We are assuming that all students know their PIN number, but if they forget, we can access it through every register. It is strongly recommended that all students remember their number, as this will make the lunch lines move faster.
