

NativeNeighbors

Bear Creek Community Charter School @ Ten Mile Run

Native Neighbors

Native Neighbors is an interactive exhibit and self-paced learning opportunity for students, parents and visitors alike. The program showcases animals and birds that are native to Pennsylvania, including the Bear Creek Community Charter School Campus.

Students and visitors will find a variety of unique taxidermy throughout the School's common areas, each paired with key information about the species' history, habitat and impact on the environment. Each exhibit also includes a QR code, where students and visitors can use personal technology to get a more in-depth examination of the showcased bird or animal.

A program booklet and children's activities are also under development.

Grade Level: All ages, including adults.

Implementation Timeline: Year-round.
